

## LOUISVILLE PARKS AND RECREATION

### Medication Policy

To ensure the health and safety of all campers, please be advised that camp staff are not permitted to administer, handle, or store any form of medication. If your child requires medication during camp hours, they must be capable of self-administering it without staff assistance. It is the responsibility of the parent or guardian to ensure that their child understands their medication regimen and is able to manage it independently while at camp. Medications brought to summer camp must remain with each summer camp participant and in their original container (over the counter or prescription)

We appreciate your cooperation in helping us maintain a safe and supportive environment for all participants.

### Acknowledgment

I have read and understand the camp's medication policy. I acknowledge that camp staff will not administer or handle any medications and that my child is responsible for self-administering any required medication.
